A-0240 Stereo Amplifier
50w x 2 per channel RMS

A-0240

The A-0240 is the main amplifier for Crescendo. It delivers powerful, high quality audio to speakers in each room.

The A-0240 can also be used with other products where its 40watts RMS per channel improves enormously on lower powered products.

Its small size allows the A-0240 to be easily hidden making stealth installs easy to achieve

VC-302 Volume Control
100w x 2 per channel RMS

VC-302

The VC-302 Volume Control allows you to adjust the volume of the room while in the room.

Available in white, these simple to install products handle up to 300 watts peak and 100 watts RMS per channel

Impedance matching allows for up to eight pairs of speakers

A-0314D In Wall iPod Dock
With IR support

A-0314

The A-0314D On-Wall Docking Station adjusts to fit any iPod®.

Once installed in the wall, it supports IR control and will also charge the iPod while docked.

Deliver audio anywhere around the home and control it.

IC-608 Ceiling Speakers
