CHANNEL VISION™

iMERGE

CONTROL AV EQUIPMENT OVER WIFI USING APPLE ITOUCH, IPHONE & IPAD

iMERGE is our powerful Windows PC based application to create stunning control solutions for use on Apple iPad, iPhone and iPod Touch devices.

We provide a range of services tailored to client's needs. From audio / visual distribution to video conferencing suites, to residential security and CCTV and home cinemas.

The success of your project depends upon the seamless integration of all kinds of complex equipment and controls.

DIRECTOR SERIES

TOUCH SCREENS, IPOD HOLDERS, MULTI-ROOM AUDIO/VIDEO

The amazing new DIRECTOR SERIES digital Multi-Room audio range is the ideal combination of product, delivering music to many rooms around the home, all controlled by Apple touch screen products.

D-4603D1

Control Via
iPhone & iPad

The 4603D1 kit includes a stand-alone 4 stream audio only server and 6 way matrix that can play iTunes, Windows Media Player and thousands of internet stations when connected to the internet.

Plug an iPod into the server and have each room listen to any of these sources, each playing a different track at the same time.

Choose from our range of wireless and wired, high-powered amplifiers and speakers to deliver awesome sound quality to 6 rooms.

(Amplifiers, speakers and Apple products not included in kit)

DIRECTOR SERIES

Like the D-4603D1, the A-4623D1 includes a stand alone server offering 4 sources and has the ability to play iTunes and Windows Media music as well as internet radio stations to hardwired speakers around the home.

Plug in your iPod and have each room listen to a different track at the same time.

Any of the 4 source inputs can be selected and routed to any of the 6 outputs (or zones) independent of the other.

The 6 zone matrix A/V controller with an integrated amplifier designed for whole-house audio & video distribution, delivers hard wired music and has a built-in IR control system for analog input device control

The unit also provides both pre-amp outputs and speaker level outputs for each of the 6 zones making it easy to add a higher power amplifier for more demanding applications.

D-4623D1

The D-4623D1, like the D-4603D, has built in amplification, sending awesome cabled audio to 6 rooms. (Apple products & Speakers are not included)

Control Via iPhone
& iPad

HDTV MULTI-ROOM AUDIO & VIDEO

The A-100HDTV-A kits are High-Definition Audio & Video Multi-Room systems for 4 rooms or 8 rooms. Control is by Apple iPod, iPhone or iPad.

Play up to 8 different sources into 8 different room. Watch multiple Foxtel STBs in HDTV. Media Players, Internet Radio, iPods, etc. can all be connected to the system offering unbelievable choice, all in High Definition.

Designed for whole-house audio and video distribution, the system also provides the ability to send movies around the house. Any of the source inputs can be selected and routed to any of the 8 outputs (or zones) independent of the other zones.

Featuring ARIA 100w, D Class amplifiers with local source inputs, these High Power amplifiers add the ability to play Free To Air TV through your Multi-Room speakers. (Apple products & speakers not included)

A-100HDTV-A4 & A-100HDTV-A8

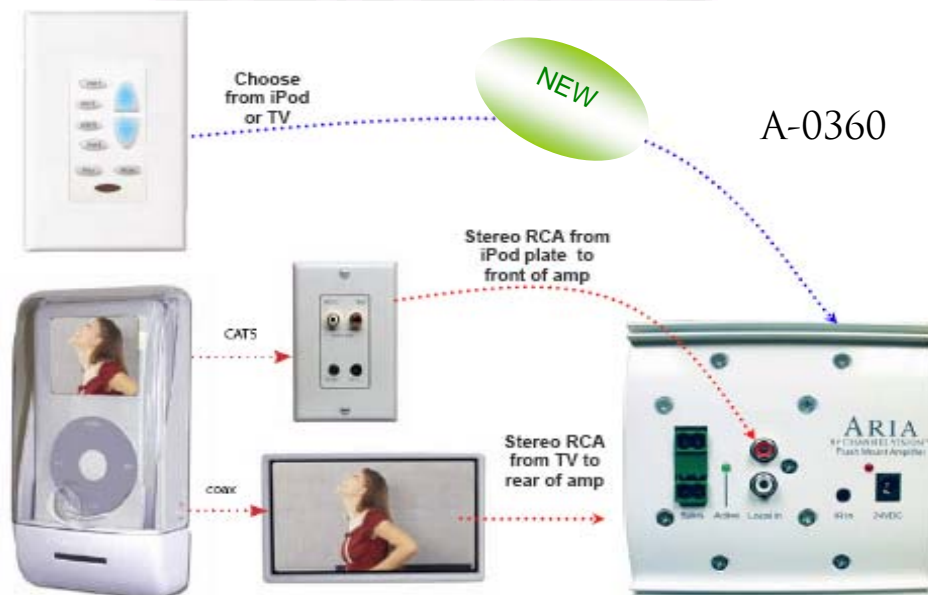

ARIA

IPOD PRODUCTS

Channel Vision's **On-Wall Docking Stations Made for iPod®.**

The dock connector easily adjusts to fit any iPod® and has a non-skid pad to help keep the music player secure. With its elegant and contemporary styling, it fits into any home setting and provides the convenience of accessing an iPod® from any wall in the home

TURN YOUR IPOD INTO A HI-FI SYSTEM

An "All in One" in-room audio system that combines an amplified iPod holder and keypad and that allows for a second input such as a Local TV or even media server to be played through your speakers.

A-0316

- Composite video output
- iPod® audio output
- Charges iPod
- IR control with built in IR Receiver
- Works with: iPod®, iPhone®, iTouch® iPod

A0316

Custom "On-Wall" Dock

Composite video output for all iPod® models

IR Control
RS-232 allows for an advanced touchscreen control system and iPod® meta data feed-back for title, cover art and playlist

*Video is not compatible with classic or newer models
iPod® is not included with any Channel Vision products

A-0314D

- iBus(tm) wall dock for distributed audio and video provides a balanced line level audio output. It supports IR control & charges the iPod. Some models allow viewing of iPod videos on a TV.

TECHNOLOGY By CHANNEL VISION™

ULTIMO

Ultimo-1 & 2 Kits

Channel Visions Ultimo IR-2005/VC-300 in wall IR and Volume panel is the primary source and volume control device for each room.

Ultimo provides convenient control via a hand held remote control of such instructions as song select on iPod or channel choice on Foxtel while at the same time allowing volume levels to be controlled in each room.

Now you can take control at an amazing price.

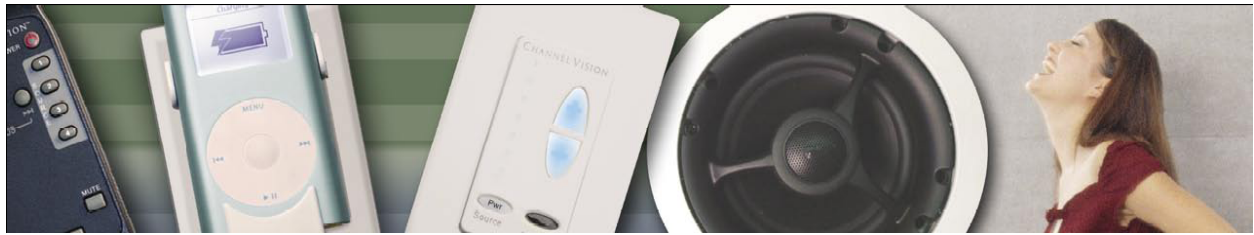

Ultimo-3 Kit

The Ultima 3, is a 4 Source/4 zone audio system that is ideal for those installations that don't require matrix switching.

At the heart of this system is a high power, 4 input plus FM/AM pre-select amplifier that allows for remote control of most functions from any room where control panels are fitted.

Universal control of both Bass and Treble is standard. Choose from IR/Volume panels & Volume only panels, always achieving that special Channel Vision result.

ARIA

A-4601 & A-4603 Kits

The **A-4601 Kit & A-4603 Kit** are 4 input, 6 zone matrix A/V Multi-Room combinations consisting of a matrix controller and separate main amplifier.

Designed for whole-house audio/video distribution, the unit provides magnificent, powerful Audio and beautiful Video.

Any of the 4 source inputs can be selected and routed to any of the 6 outputs (or zones) independent of the other zones.

This is a wonderful solution for viewing Foxtel at all TV locations, while at the same time enjoying great sound.

These class leading kits are amongst the most powerful in the industry.

A-4623 Kit

The **A-4623** is a single chassis 4 input 6 zone matrix A/V controller with an integrated amplifier designed for whole-house audio/video distribution.

The unit provides both pre-amp outputs and speaker level outputs for each of the 6 zones making it easy to add a higher power amplifier for more demanding applications.

The 4 source inputs can be selected and routed to any of the 6 outputs (zones) independent of the other zones.

Control it is possible from a multiple of devices including keypads, touch screens, laptops or even IR.

A-0240 Amplifier

Features:

High power, Stereo, D class amplifier in tiny chassis with variable gain control to suit different input devices. Excellent for retrofit applications
Boosts power on existing low powered distributed audio systems.

Specifications: (typical at 25° C)

Audio

Output power: 40 Watts/channel RMS into 6 ohms

Frequency Response: 20-20kHz (+/-3dB)

Signal to Noise Ratio: >85dB

Input Sensitivity: 500mVRMS

A-250 Amplifier

WA-250 Wireless Amplifier

Features:

High power, Stereo, D class amplifier with variable gain control to suit different input devices. Excellent for retrofit applications
Boosts power on existing low powered distributed audio systems.

Specifications: (typical at 25° C)

Audio

Output power: 50 Watts/channel RMS into 6 ohms

Frequency Response: 20-20kHz (+/-3dB)

Signal to Noise Ratio: >85dB

A-350 In Wall Amplifier

WA-350 Wireless, In Wall Amplifier

Features:

High power, Stereo, D class amplifier with variable gain control to suit different input devices. Excellent for retrofit applications
Boosts power on existing low powered distributed audio systems.

Specifications: (typical at 25° C)

Audio

Output power: 50 Watts/channel RMS into 6 ohms

Frequency Response: 20-20kHz (+/-3dB)

Signal to Noise Ratio: >85dB

Input Sensitivity: 500mVRMS

A1260

Features :

Each zone may be switched between the global input and the local input.
Sources connected to Global input can be heard in all 6 zones.

Specifications: (Typical @25 degrees C)

Output Frequency Range: 20-20kHz

Output Level: 60 W/ch 8ohms

60 W/ch 4 ohms

Power Consumption: < 35W(no input)

Turn on delay: < 500msec

Turn off delay: ~ 30-100 seconds

THD: < .1% @ 1kHz

A4601 A4603 (With RS-232)

Features:

Switches both Audio and Video from 4 sources allowing them to be accessed from any of the 6 zones.

Integrated IR repeating system with 4 IR emitter outputs

Computer-grade components for better performance and durability

Specifications: (typical @25° C)

Audio

Bandwidth: 20-20kHz

Crosstalk: -90 dB

Dynamic Range: 6.0 Vp-p

THD: 0.01%

A4623 (With RS-232)

Features:

Switches both Audio and Video from 4 sources allowing them to be accessed from any of the 6 zones.

Integrated 12 channel amplifier and IR repeating system with 4 IR emitter outputs.

Computer-grade components for better performance and durability.

Specifications: (typical @25° C)

Audio

Bandwidth: 20-20kHz

Crosstalk: -90 dB

Dynamic Range: 6.0 Vp-p

THD: 0.01%

Output : 20 Watts per channel all channels driven

Video

Bandwidth: DC-20MHz

Crosstalk: -60 dB

A-0313/A-0314/A-0315/A-0316

Features:

Wall Mounted iPod holder

Both Audio & Audio/Video Models

Charges battery

Control via remote control or Touch Screen depending on model

Integrates into Multi-Room Kit

Display Meta Data depending on model
